Tayyab Faisal

Full-Stack Web Developer

Karachi, Pakistan tayyab3333.uk@gmail.com 0334-8275259 +92 334 8275259

linkedin.com/in/tayyab-faisal github.com/tayyab3333uk-cpu

PROFESSIONAL SUMMARY

Motivated Full-Stack Web Developer with practical engineering experience building responsive, accessible frontends and structured backend systems. Proficient in HTML5, CSS3, JavaScript, Bootstrap 5, PHP, Laravel, and MySQL relational databases, complemented by foundational object-oriented programming in Java. Demonstrates high accountability, methodical data verification, and documentation discipline developed through corporate accounts operations at Reliable Ship Supply. Seeking a software house internship or junior developer role to engineer performant web applications and contribute to collaborative, agile teams.

TECHNICAL COMPETENCIES

Frontend Engineering

HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, Responsive Design, CSS Grid/Flexbox

Backend & Server

PHP (OOP, Procedural, REST endpoints), Laravel (MVC, Routing, Blade, Eloquent ORM)

Database & Data Modeling

MySQL (Relational Schema Design, Queries, Joins, Normalization, Data Integrity)

Core Programming

Java (Object-Oriented Programming, Encapsulation, Inheritance, Polymorphism)

Developer Tooling & CMS

Git, GitHub, Visual Studio Code, XAMPP (Apache/MySQL), WordPress

Engineering Strengths

Cross-Browser Compatibility, Semantic Code, Debugging, Documentation Rigor

FEATURED WEB PROJECTS

Aura Watches — Luxury Timepieces E-Commerce Platform `Bootstrap 5, JavaScript, jQuery, FontAwesome`

Demo: tayyab3333uk-cpu.github.io/AURA---WATCHES-/ Repo: github.com/tayyab3333uk-cpu/AURA---WATCHES-

Engineered an immersive luxury watch retail showcase featuring an interactive live quartz clock engine, dynamic product catalog filters, modal previews, responsive navigation, and client-side shopping cart counter.

Reely. — High-Performance Gaming & Workstations Hub `HTML5, CSS3, JavaScript, Bootstrap, AOS`

Demo: tayyab3333uk-cpu.github.io/Gaming-Devices-.com/ Repo: github.com/tayyab3333uk-cpu/Gaming-Devices-.com

Constructed a modern hardware catalog featuring custom gaming PC configurations, workstation rigs, laptops, and peripheral showcases with Animate On Scroll (AOS) triggers and high-contrast dark gaming aesthetics.

PakCivic — Pakistan Civic Issues Awareness Platform

`Semantic HTML5, CSS Grid/Flexbox, JavaScript`

Demo: tayyab3333uk-cpu.github.io/Pakistan-Social-issues/ Repo: github.com/tayyab3333uk-cpu/Pakistan-Social-issues

Created a public awareness portal highlighting national infrastructure challenges (power outages, water scarcity, pollution) with dynamic telemetry bars, citizen issue reporting workflows, and community solution indexes.

COMMERCIAL EXPERIENCE

Accounts Department Associate

`Duration: 6 Months`

Reliable Ship Supply — Karachi, Pakistan (reliableshipsupply.com)

- Executed commercial invoice processing, supplier billing verification, and maritime provisioning documentation.
- Systematically organized and archived invoice records for rapid retrieval, internal reconciliation, and commercial auditing.
- Assisted daily accounts department ledger entries and administrative transaction workflows.
- Developed high accountability, mathematical precision, and meticulous document organization directly applicable to clean software architecture and database schema management.

EDUCATION & CERTIFICATIONS

ACCP AI (Aptech Certified Computer Professional in Artificial Intelligence)

`1 Year Completed (2 Years Remaining)`

APTECH Computer Education

Comprehensive 3-year program covering modern Web Engineering, Full-Stack Architecture (PHP/Laravel), Relational Databases (MySQL), Core Java Object-Oriented Programming, and foundational Artificial Intelligence integrations.

Matriculation — Science Group

`Class of 2025`

Board of Secondary Education Karachi (BSEK)

Foundation in Computer Science, Mathematics, and Physics with an emphasis on analytical problem-solving and scientific reasoning.
